TIFFANY WEBB, BBA, MHP

Community Impact Strategist · Public Health Educator & Speaker

Chicago-born and - raised, with deep Louisiana family roots.

| *"When we rise, we rise together."*

Market timing is exceptional.

9 Million

American adults are estimated to suffer from a gambling problem — a \$14B annual social cost (NCPG).

WHY IT MATTERS

A national crisis with too few credible voices.

8%

Nearly 1 in 12 U.S. adults now report signs of a gambling problem (NCPG 2025 survey) .

WHY IT MATTERS

The problem is growing faster than the response.

39 states + DC

Legal sports betting has expanded to 39 states plus D.C. since 2018 (Murphy v. NCAA) .

WHY IT MATTERS

Every new state needs prevention educators.

3.6% vs 2.9%

Problem-gambling prevalence is higher among African Americans than white Americans (Addiction journal).

WHY IT MATTERS

The communities most affected are the ones Tiffany reaches best.

The NCPG Annual Conference, Problem Gambling Awareness Month, and Gambling Disorder Screening Day run every year — **the stages are already waiting.**

An honest audit.

Read as opportunity, not critique.

ALREADY WORKING

Deep, verifiable credentials — BBA, MHP, 15+ years, 4,000+ hours

Real institutional affiliations — HAS, Illinois Council on Problem Gambling

A genuine, ownable story — "Chicago soul, Louisiana heart"

A rare, deep 21-topic catalog across 4 tracks

Distinctive art direction that already avoids the nonprofit trap

WHAT WE'LL FIX

No independent website yet — public footprint is employer-anchored

Thin thought-leadership content — no video reel, no named framework

Testimonials and social proof not yet packaged

Domains and contact points fragmented across brands

Speaking fees and offer ladder undefined

Brilliant raw material. Fragmented presentation. The gaps are exactly what we're here to close.

FROM JOB TITLE TO NATIONAL BRAND

"Tiffany Webb is a public-health educator and Community Impact Strategist who helps organizations prevent gambling harm and build healthier communities — combining 15+ years of frontline prevention with the cultural fluency to reach the people other programs miss."

Community Impact Strategist

From a job title to a household name.

Today, "Tiffany Webb" lives inside an employer's job title and behind a t-shirt brand. Our mission at Y Arts! is to invert that: make **TIFFANY WEBB** the brand — the nationally recognized Community Impact Strategist — and let every venture, including GambleFreeGear, grow under her name. *She is not the person behind GambleFreeGear. GambleFreeGear is one expression of her.*

A Branded House.

One name carries every venture. One venture stands beside it, visibly endorsed.

Five proven models. One empty lane.

Brené Brown

Research professor turned global voice. One framework, bestselling books, top podcasts.

BORROW

Turn expertise into ONE teachable framework.

Simon Sinek

"Start With Why." One repeatable idea anchors every talk he gives.

BORROW

A signature idea — "prevention begins with a conversation."

Dan Pallotta

Changed how a whole sector thinks via one bold TED-talk argument.

BORROW

A courageous point of view.

Cheryl Jackson

Faith-driven founder; a legacy story took her to national TV.

BORROW

Legacy + faith as brand fuel.

Kelly Fair

Chicago program founder turned corporate-booked speaker with books.

BORROW

The founder-to-speaker path.

All five prove the model works. None of them stand where Tiffany stands: culturally rooted gambling-harm prevention.
That lane is empty — and it's hers.
